Hi,

I just changed your subscription to the API Professional version and added 90 days free trial. You can use the same API key. Afterwards the subscription will terminate. Let me know if we need to extend the trial access afterwards.

Best regards,
Patrick Zippenfenig

Hello Open Meteo Team,

I am currently collaborating with Damian (CC) on our Bachelor's thesis at the Zurich University of Applied Sciences, where we are developing a Prediction Model for Storm Damages. The model will be trained on historical storm damages and corresponding weather data.

Regrettably, I just purchased the incorrect API Key for standard usage, which lacks access to historical weather data. I would like to inquire about the possibility of obtaining an API Key for the API Professional Subscription. Our usage of the API is solely for academic purposes, and this upgrade would significantly enhance our research efforts.

Thank you for your consideration.

Best regards and happy weekend,
Nils Gämperli and Damian Ueltschi

P.S. The previous API Key was purchased with my private Email
(n.gaemperli@gmail.com)
